

# ACTION BIBLE DISTRIBUTION REPORT

**From Nelson Morales**  
**Field Director**  
January 2020

Happy New Year! 2020 is going to be a year of challenges and exciting opportunities. God is continuing to open doors within public schools, even with new government advised regulations on our visits.

We began this year, attending to the needs of teachers who have been asking for help teaching morals and values to their young students. They are very aware that many children are experiencing hardships and require guidance to set them on the right path for the future.

## Workshops and Engagement

We had the opportunity to visit five groups at Totonicapan, el Quiche, Quetzaltenango, Guatemala City, and San Marcos where we engaged them and provided information about the vision of the Action Bible program. These groups understood the vision presented and accepted this program for their schools with open arms. They were excited by the potential to positively change behavior by engaging their students with the Action Bible.

## Networking

Our regional contacts are preparing follow-up visits in their regions, and we have continued to add people from other locations to reach even more schools and community clubs with the Action Bible Program.

One of our partners is the National Police Department. They assist us by going into red areas where there is an urgent need to speak about Principles for Life.

## Christian Ministries

We have had many meetings in the last few days at an annual mission meeting. Church Leaders and Pastors have opened the door for us to reach into their local communities. They have created opportunities for us to visit their organizations, and we are encouraging them to share the work we are doing with children with others.

## Impact

We closed out 2019, celebrating with 6th graders around the country. They took their Action Bibles home! We were blessed to experience their excitement, gratefulness, and witnessed their decision to follow Jesus. GOD IS GREAT!

Keep praying,  
In Christ, Nelson Morales, Guatemala Action Bible Field Director.
