

ACTION BIBLE DISTRIBUTION REPORT

From Nelson Morales
Action Bible Field Director
March 2020

I want to begin this update by giving thanks to our Lord for His mercy and love, and the countless ways, He reminds us of His promises of care and protection. I am thankful for His gift of Everlasting Life through His lovely Son Jesus Christ. That is our focus with every group we meet with, and every school and community we visit.

Engagement

This month we were blessed with the opportunity to begin the Reading and Morals and Values program with 3,000 Children who attend schools in Guatemala City and Tonicapán.

We have provided follow-up visits to schools around the country and through our regional contacts in many different locations.

Networking

We continue encouraging our partners around the country to share the Gospel all the time. We must maintain excellent communication with them as they Eternally impact others using the Action Bible in their regions and are inviting teachers to participate in expanding God's Kingdom.

Some of our contacts are collaborating with us in a very effective way. They are reaching children in schools and communities sharing the good news through the Action Bible and Story of Jesus pamphlets.

Workshops

I consider workshops to be very important to properly equip our partners with the tools they need to share the Gospel. Through the workshops, the participants learn the vision of the Action Bible Program, and they are provided with creative ideas that they can use as they go into the schools and communities to engage with the children and introduce them to God's Word through the Action Bible.

Please keep us in your Prayers as we all face challenging times. When fear is taking hold of us, we need to remember that God is in control all times, just as His Word says.

God Bless you,
In Christ, Nelson Morales
Guatemala Action Bible Field Director
